1331 H Street, NW, Suite 1000
Washington, DC 20005-4706

EMAIL: IHBGformula@swinter.com

☎Toll Free Number: 1-800-410-8808

FAX: 1-202-393-5043

Q: Do I need to report conveyed units to HUD?

A: Yes, each year tribes/TDHEs report conveyed units and their date of conveyance on their Formula Response Form and send these changes to the IHBG Customer Service Center.

Q: Where do I report 1937 Act projects that reach Date of Full Availability (DOFA)?

A: Tribes/TDHEs should report 1937 Act projects that reach DOFA on their Formula Response Forms and send these changes to the IHBG Customer Service Center.

Q. Our Needs data isn't reflecting our demographics. What can I do?

A. First, make sure your Formula Area adequately represents the geography that you have historically provided housing services to, and are planning to provide services to in the future. (See 24 CFR 1000.302). If it does not, then submit a request with the appropriate documentation by Sept. 15 to the IHBG Formula Customer Service Center to increase your Formula Area. Also, check to see if your population data has been capped as indicated by a "*" next to the AIAN Persons variable under your Tribe's Need data. If your population data has been capped, check to see that your Tribal Enrollment figure is accurate. Should both your Formula Area and Tribal Enrollment numbers be accurate, you may want to consider conducting a Census challenge for FY 2002. Contact the IHBG Formula Customer Service Center for guidelines on how to conduct a Census challenge. Please note that Census challenges and documentation must be submitted by June 15 of the previous year to be considered for upcoming allocations.
